

Are You Confident About Retirement?

Only **18%** of American workers feel confident about having enough money for a comfortable retirement

3 in **10** workers report that preparing for retirement causes them to feel mentally or emotionally stressed.

1 in **4** workers indicate they need to save 30% or more of their income to live comfortably in retirement.

18% of workers believe they will need to retire later and nearly as many as **54%** say they will need to save more later.

Workers who have a retirement plan are far more likely to feel confident about having enough money for their golden years.
